National Science Day-2024 celebrated at Bhawanipur Anchalik College

Bhawanipur Anchalik College, through its Science Forum, takes great pride in organizing the “National Science Day celebrations” for the year 2024. The primary objective of the National Science Day-2024 Celebrations at Bhawanipur Anchalik College is to foster a spirit of scientific inquiry, promote scientific temper among students, and celebrate the achievements and contributions of Indian scientists to the global scientific community.

Dr. Mukunda Sarma, Principal, Bhawanipur Anchalik College

addressed the participants with his encouraging words during the inaugural meeting. Many delegates from the greater Bhawanipur area were present at the inaugural session including a few alumni of the institute.

Several events such as on-spot art competition,

Science Model Exhibition & competition, logo making competition and quiz competition were conducted and more than 200 participants from over 15 schools in the locality of greater Bhawanipur area participated in this event. Mr. Phanidhar Talukdar, Member of Legislative Assembly (Bhawanipur constituency) attended the concluding session of the meeting. During his address, Mr. Talukdar discussed the notable contributions of Nobel Laureate C. V. Raman and emphasized the importance of

drawing inspiration from Raman's work for the societal development. Mr. Talukdar

distributed the prizes to the winners of different competitions organized as a part of the event. It has to be mentioned that this event was successful due to the support from various governmental (ASTEC) and non-governmental assets (*Doofies*), including a nominal part from public funding.
