

Special Lecture organized by Department of Chemistry, Bhawanipur Anchalik College

Department of Chemistry, Bhawanipur Anchalik College, organized a Special Lecture on 18th August 2025 at the college premises.

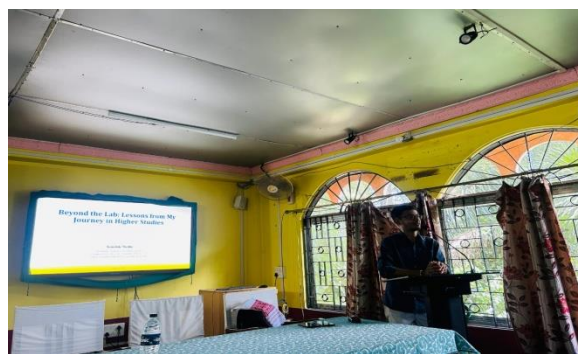

Mr. Koushik Medhi was invited as a guest speaker who spoke on the topic:

“Beyond the Lab: Lessons from My Journey in Higher Studies”

Mr. Medhi is a Doctoral Research Scholar, Northwestern University Evanston, Illinois, USA. His research experience includes MITACS Globalink Research Internship at Dalhousie University, Canada and DAAD WISE Fellowship at Freie University, Germany. He is a recipient of the ISPIRE Scholarship from the Department of Science and Technology and the

Academic Excellence Award and President's Gold Medal, the Director's Gold Medal and the Proficiency Medal in Chemistry from IISER Bhopal. The guest speaker was formally introduced to the audience by Dr. Sumitra Bhattarai, Assistant Professor, Department of Chemistry, Bhawanipur Anchalik College.

The speaker provided insightful remarks on future prospect of continuing higher education at various research institutes (IITs, IISERs, NITs, etc) and the available internship programs (both national & international) for undergraduate students. The lecture was short yet fruitful. The students had shown keen interest and actively participated in the interactive session.

The program was attended by faculty members and chemistry (H.S & B.Sc) students. The program concluded with the vote of thanks proposed by Dr. Priyana Kalita, Assistant Professor, Department of Chemistry, Bhawanipur Anchalik College.
